Columbus Insurance Company,

OF COLUMBUS, OHIO.

Capital paid in \$300,000.

INCORPORATED IN 1832.

JOSEPH K. EDGERTON, Agent.

THIS Company, since its organization, has paid nearly \$300,000 of dividends to its stockholders. The losses have always been promptly adjusted and paid. The subscriber desires to insure his property, and to have the same insured by him. All losses are adjusted at the agency where the risk is taken, and persons insuring in the Company may have full confidence in its ability to pay, and in the prompt and honorable dealing with the insured.

POETRY.

A CHANGE OF INTEREST.

Buty's got another Baby!

Darling, precious little tyke!

Grandma says—she knows surely!

That you never saw like,

Oh, it's a beautiful beauty,

Like there's no sweeter and ang!

Mrs. Jones says stop your squeal!

Darling's nose is not a pug!

Some one says 'tis Pa all over,

Whereas Pa turns very red,

And, to see his features, quickly,

To the looking-glass has fled;

But recovers his composure

When he hears the nurse's story,

Who admits that all Baby's,

This indeed is the crowning glory.

Aunt Belinda says she guesses—

Boys, indeed, she knows, I posit—

That it will prove to be a greater,

Man than ever 'tis father was!

Proving thus the modern theory,

Field by reverend doctors sage,

That in babies as in wisdom,

This is a "proverb" true.

Uncle Tom looks on and wonders

At great a prodigy!

Close and closer still he presses,

Thinking something brave to see,

Up they hold the babe before him,

While they gather in a ring,

And, as the staggered uncle

Yainly tries to prize to wing.

As he stares, the lovely infant,

Nestling by its mother's side,

Opens its little mouth, and smiling,

Gurgles forth a milky ditty,

Uncle tries to hide his eyes,

Looks about to find his way,

Stumbles blindly off a table,

And upon the startled cat.

Why, oh! why such awkward blunders?

Better far have stayed away,

Nor have thrust yourself, where women,

Hold us undisturbed away.

Do you think that now they'll name it,

As they meant to, after you?

Wretched mother! let me answer,

You've dandled if not me,

Round about the noisy women

Pass the helpless stranger now,

And with each new feast feast!

Chin, and mouth, and eyes, and brow;

And for this young bud of promise

All neglect the rosy bloom,

Eldest born, who, quite forgotten,

Posits within her lonely room!

Soundest slumbering the cow bell!

That the waiting world may know!

Publish it through all our borders,

Evil into Mexico,

Seize your pen, oh! dreaming poet,

And in numbers smooth may be,

Spoken of by all our people,

Boys got another baby.

THE COURSE OF TRUE LOVE NEVER DID

RUN SMOOTH.—The Norwalk (Conn.) Ga-

zette, of Tuesday last, has a verification of

this old adage, mixed up with the romantic

and recently occurred in this city. A fair

young lady, some fifteen summers, on a

visit to those parts from our goodly city of

Brooklyn, became acquainted with a

good looking Norwalk youth, about three

years her senior. They became more ardently

attached to each other, and there being no

hope of parental sanction, the part of the

young lady's, in consequence of her youth,

one early dawn she stole away, crossed the

East River, found her lover in waiting, and

took the first train for Norwalk.

The father missed the daughter at breakfast,

suspected the cause and followed in the second

train. On reaching Norwalk, he found the

fugitive had left for the West, and that she

was in the hands of a man named Green, of

Poundridge, and Gretta Green of Fairfield

County, in company with their groomsmen

and bridesmaids. Just as he came in sight of

them, his vehicle broke down. But as it hap-

Democratic Conventions.

Noble County.—The delegates elect from the several townships in Noble County are requested to meet at Albion Saturday, June 15th, 1850, for the purpose of nominating a Representative Delegate to the Constitutional Convention; a member of the State Legislature; candidates for the county offices to be filled; and to elect 13 delegates to the Auburn convention.

By order of the Central Committee of Noble County. NELSON PRENTISS, Ch'n.

Representative Convention.—The convention to nominate a democratic candidate for Representative to the State Legislature, for the district composed of the counties of De Kalb and Steuben; also, to nominate a candidate for Delegate to the Constitutional Convention, for the same district, will be held at Auburn on the 22d day of June next, at 10 o'clock A. M. The delegates from the several counties will be entitled to send delegates as follows: De Kalb 23, Steuben 13.

By order of the district Committee.

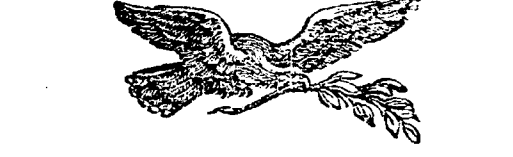

District Convention.—The democrats of the Senatorial District comprising the counties of De Kalb, Noble, and Steuben, are requested to meet in convention at Auburn, De Kalb Co. on Saturday, the 22d day of June next, at 10 o'clock A. M. of said day, to nominate a candidate for Senatorial Delegate to represent said counties in the Convention to revise and amend the Constitution of the State of Indiana.

According to former usage, each county will be entitled to one delegate for every 50 democratic votes polled at the last election, and one additional delegate when the fraction exceeds one-half the ratio, to wit: De Kalb 11 Delegates; Noble 13; Steuben 9.

SATURDAY, JUNE 8, 1850.

Mr. V. B. PALMER, Tribune Building, New York; Third and Chestnut Streets, Philadelphia; and No. 8 Congress Street, Boston, is Sole Agent for the Sentinel in those cities, and is alone authorized to receive subscriptions and advertisements, &c. on our account.

BRAGGARY.—On Monday night last, the warehouse of Mr. J. S. Pince, at this place, was broken open, and six packs containing 1750 cow skins stolen. The robbery was not discovered until late the following day; nor is there as yet the slightest clue to the detection of the robbers. A reward of \$100 is offered for the recovery of the skins.

We are informed there have been one or two other attempts at house-breaking within the past week, but fortunately without success. Our citizens should be on the alert, as there appears to be some determined villain harboring among us.

Nashville Convention.—The Southern Convention assembled at Nashville on Monday last. Judge Sharkey of Mississippi was appointed President; Gov. McDonald of Georgia Vice President; and E. G. Eastman and W. F. Cooper Secretaries. The proceedings opened with prayer. We do not see anything of interest in the first day's proceedings; nor any statement of the number of delegates in attendance.

CONGRESS.—There is nothing worthy of note in the Congressional proceedings this week. The compromise bill continues to occupy the attention of the Senate.

Daguerrotypes.—We would refer those wishing to procure good likenesses of themselves or friends, to the card of Mr. O. H. MINER in our advertising columns this day. An inspection of some of his beautiful pictures has satisfied us that he is a proficient in his art; and warrants us in saying that no one who gives him a sitting will fail of getting a highly-finished and faithful likeness. He may be found in the room over Mr. Shoaff's Drug Store, in Calhoun street.

Crossing the Isthmus.—We direct the attention of all who contemplate crossing the Isthmus to the advertisement of Messrs. MILLER, formerly of this place. They have established taverns at Chagres, Gorgona, Cruces, and Panama, and will, we are assured, do every thing in their power to secure the comfort and convenience of their guests. Their establishments have been repeatedly noticed in the most flattering terms by the Panama papers.

Unwarrantable Speculation on the part of

U. S. Consul.—A Mr. Fleischman, recently appointed Consul to Stuttgart, in Germany, has, it appears, been making use of his official station to advance the views of a knot of speculators with whom he is interested in the ownership of a large tract of barren pine lands somewhere in the frozen regions bordering on Lake Superior. He has circulated a pamphlet throughout Germany, giving a most glowing account of the beauty and richness of the peculiar locality where his lands are situated—painting it out as a perfect El Dorado—and at the same time representing that other parts of the West, Ohio and Indiana for example, are not at all calculated for German emigrants. He also, it is stated, sells tracts of his land to persons about emigrating, for the modest price of \$5.00 to \$8.00 per acre. His station as Consul causes his statements to be implicitly relied upon. The result is, that nearly all the German emigrants who have arrived in the country this spring, proceed at once to the place designated.

Apart from the injustice which this unwarrantable abuse of the duties of his station is working to other states, by diverting emigration from their borders; we think as an act of kindness to the deluded emigrants, who are by his misrepresentations induced to locate themselves in so unfavorable a part of the country,—the Senate ought to reject his nomination, if it is not already confirmed; and if it is, some steps ought to be taken to procure his prompt removal. The land speculators and monopolists are able of themselves to do mischief enough, without having the influence of government to aid them in their schemes.

Set at Liberty.—The Supreme court of this State has reversed the judgment rendered against CHAS. ENGELMAN (the Flying Dutchman) and he has been discharged from the penitentiary, after serving rather more than half the term of his sentence. His discharge was effected, not because there existed the slightest doubt of his guilt, but merely on account of some legal technicality, or trifling error in the proceedings. We hope our new constitution will provide some method of simplifying our code of practice, that will put a stop to this ridiculous mockery of justice, and ensure his just deserts to every rascal of whose guilt there can be no doubt.

RAIN, RAIN!—After a long continued drought of several weeks' duration, we were blessed with a fine rain last night, and the appearance this morning are favorable for more. It was much needed. We are in hopes yet that the wheat will prove an average crop.

Declines.—We are desired by Mr. W. N. PARKER, nominated by the democratic convention for Coroner, to give notice that he declines being a candidate for that office.

Visit of Gov. Crittenden.—Gov. Crittenden of Kentucky paid a visit to Gov. Wright at Indianapolis last week. The papers of that place contain a lengthy account of the doings on the occasion—from which we infer that the two governors and their friends had a "quite a time of it." A meeting called a "Union Meeting" was held on the occasion, at which diverse patriotic speeches were made and resolutions adopted. We do not exactly see the necessity for such meeting was, "Indiana knows no north, no south; nothing but the Union." Her attachment and fidelity to the Union are so well known that it was scarcely necessary thus publicly to define her position.

FROM CALIFORNIA.
We are indebted to Mr. Rufus French, late of this city, for several late California papers, well filled with advertisements, and have quite a city book about them.

We make an extract from the Daily Pacific News, published at San Francisco, showing what the feeling there is, in relation to the delay of Congress in admitting California into the Union as a state. The ground is distinctly taken, that as regards the slave question, they know the best what suits them; and as they have declared their unalterable intention never to have the curse of slavery fastened upon them, Congress is bound to respect their decision; and unless they are promptly admitted into the Union, they will feel called upon to declare themselves a free and sovereign state.

The article is deserving the serious consideration of all who feel an interest in the welfare and stability of the Union. California will be no longer trifled with, and if not speedily admitted into the Union, we may expect to see it withdraw from its allegiance to the U. States, and establish itself as an independent republic. Are the slavery ultras prepared for this result?

CALIFORNIA—Admission or Independence?
—Is California to form an additional star in the flag of that Union which we all love, and of which we are proud, or is she to shine alone, a bright particular star? The Pacific! This question is forcing itself upon the minds of all thinking men in this state. Its solution rests solely with the Congress now in session at Washington.

While not one in a hundred of our citizens have any other wish than that their Constitution should receive the approval of Congress, and our Representatives be admitted to seats in the halls, not one in a thousand can or will act otherwise than resist a refusal upon grounds, in relation to which this State, by the almost unanimous voice of her citizens, has already irrevocably declared, and this decree should be satisfactory to all parties, from the very fact that it is satisfactory to us, the party interested.

It is impossible for any portion of the state of California to be anything other than a free state! so that should Congress, in its bickering, see fit to circumscribe our boundaries making a separate government of the Southern half, it will result in the creation of two free States instead of one; a double devil for the torment of those who make our action of the subject of the slavery the grounds of our ostracism.

The meeting at Los Angeles, for the purpose of initiating action on this subject, was no expression of the public feeling in that section; it was gotten up in secret, and the very man who presided knew not the object, when installed as chairman of its deliberations.

Had the people of California, through their representatives, and afterwards by an approving vote, said nothing in their constitution upon the subject of slavery, even made it a fundamental law of the State, our position would be unchanged. The people are the true sources of power. For them government is instituted. What suits them best, they know best; and when they declare their wishes, such declaration is bound to be respected. California has thus acted—and is under this case of things, Congress feels bound to oppose our admission into the Union as a free and sovereign state, we shall feel called upon to declare our

Unwarrantable Speculation on the part of

U. S. Consul.—A Mr. Fleischman, recently appointed Consul to Stuttgart, in Germany, has, it appears, been making use of his official station to advance the views of a knot of speculators with whom he is interested in the ownership of a large tract of barren pine lands somewhere in the frozen regions bordering on Lake Superior. He has circulated a pamphlet throughout Germany, giving a most glowing account of the beauty and richness of the peculiar locality where his lands are situated—painting it out as a perfect El Dorado—and at the same time representing that other parts of the West, Ohio and Indiana for example, are not at all calculated for German emigrants. He also, it is stated, sells tracts of his land to persons about emigrating, for the modest price of \$5.00 to \$8.00 per acre. His station as Consul causes his statements to be implicitly relied upon. The result is, that nearly all the German emigrants who have arrived in the country this spring, proceed at once to the place designated.

Apart from the injustice which this unwarrantable abuse of the duties of his station is working to other states, by diverting emigration from their borders; we think as an act of kindness to the deluded emigrants, who are by his misrepresentations induced to locate themselves in so unfavorable a part of the country,—the Senate ought to reject his nomination, if it is not already confirmed; and if it is, some steps ought to be taken to procure his prompt removal. The land speculators and monopolists are able of themselves to do mischief enough, without having the influence of government to aid them in their schemes.

Set at Liberty.—The Supreme court of this State has reversed the judgment rendered against CHAS. ENGELMAN (the Flying Dutchman) and he has been discharged from the penitentiary, after serving rather more than half the term of his sentence. His discharge was effected, not because there existed the slightest doubt of his guilt, but merely on account of some legal technicality, or trifling error in the proceedings. We hope our new constitution will provide some method of simplifying our code of practice, that will put a stop to this ridiculous mockery of justice, and ensure his just deserts to every rascal of whose guilt there can be no doubt.

Democratic Conventions.

Noble County.—The delegates elect from the several townships in Noble county are requested to meet at Albion, Saturday, June 1st, 1850, for the purpose of nominating a Representative Delegate to the Constitutional Convention; a member of the State Legislature; candidates for the county offices to be filled; and to elect 13 delegates to the Auburn convention.

By order of the Central Committee of Noble county.
NICHOLSON PRENTISS, Chairman.

Representative Convention.—The convention to nominate a democratic candidate for Representative to the State Legislature, for the district composed of the counties of De Kalb and Steuben, also to nominate a candidate for Delegate to the Constitutional Convention, for the same district, will be held at Auburn on the 23d day of June next. The delegates will be entitled to send delegates as follows: De Kalb 23, Steuben 13.

By order of the district Committee.

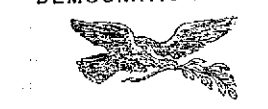

District Convention.—The delegates of the Senatorial District comprising the counties of De Kalb, Noble, and Steuben, are requested to meet in convention at Auburn, De Kalb Co. on Saturday, the 23d day of June next, at 10 o'clock A. M. of said day, to nominate a representative to the Constitutional Convention to represent said counties in the Convention to revise and amend the Constitution of the State of Indiana.

According to former usage, each county will be entitled to one delegate for every 50 democratic votes polled at the last election, and one additional delegate when the fraction exceeds one-half the ratio, to wit: De Kalb 13 Delegates; Noble 13; Steuben 9.

The Fort Wayne Sentinel.

SATURDAY, JUNE 3, 1850.

Mr. V. B. PALMER, Tribune Buildings, New York; Third and Chestnut Streets, Philadelphia; and No. 8 Congress Street, Boston, is Sole Agent for the Sentinel in those cities, and is authorized to receive subscriptions, advertisements, &c., on our account.

Breachers.—On Monday night last, the warehouse of Mr. J. S. Prince, at this place, was broken open, and six packs containing 1750 cone china stolen. The robbers were not discovered until the following day, nor is there as yet the slightest clue to the detection of the robbers. A reward of \$100 is offered for the recovery of the china.

We are informed there have been one or two other attempts at house-breaking within the past week, but fortunately without success. Our citizens should be on the alert, as there appears to be some determined villains bartering among us.

Nashville Convention.—The Southern Convention assembled at Nashville on Monday last. Judge Sharkey of Mississippi was appointed President; Gen. McDougal of Ga Vice President; and E. G. Eastman and W. F. Connor Secretaries. The proceedings opened with prayer. We do not see anything of interest in the first day's proceedings, nor any statement of the number of delegates in attendance.

Couriers.—There is nothing worthy of note in the Congressional proceedings this week. The compromise bill continues to occupy the attention of the Senate.

Disgraceful.—We would refer those wishing to procure good likenesses of themselves or friends, to the card of Mr. O. H. Meyer in our advertising columns this day. An inspection of some of his beautiful pictures has satisfied us that he is a proficient in his art; and we are in saying that no one who gives him a sitting will fail of gaining a highly-finished and faithful likeness. He may be found in the room over Mr. Sheaff's Drug Store, in Calhoun street.

Crossing the Atlantic.—We direct the attention of all who contemplate crossing the Atlantic to the advertisement of Messrs. Allen, formerly of this place. They have established taverns at Glasgow, Glasgow, Greece, and Penzance, and will, we are assured, do every thing in their power to secure the comfort and convenience of their guests. Their establishments have been repeatedly noticed in the most flattering terms by the Panama

Unparalleled Speculation on the part of U. S. Consul.—A Mr. Fleischman, recently appointed Consul to Stuttgart, in Germany, has, it appears, been making use of his official station to advance the views of a host of speculators with whom he is interested in the ownership of a large tract of barren pine lands, somewhere in the frozen regions bordering on Lake Superior. He has circulated a pamphlet throughout Germany, giving a most glowing account of the beauty and richness of the peculiar locality where his lands are situated—pointing it out as a perfect El Dorado—and at the same time representing that other parts of the West, Ohio and Indiana for example, are not at all calculated for German emigrants. He also, it is stated, sells tracts of his land to persons about emigrating, for the lowest price of \$3.00 to \$3.00 per acre. His station as Consul causes his statements to be implicitly relied upon. The result is, that nearly all the German emigrants who have arrived in the country this spring, proceed at once to the place designated.

Apart from the injustice which this unwarrantable abuse of the duties of his station is working to other states; we think as an act of kindness to the deluded emigrants, who are by his misrepresentations induced to locate themselves in so unfavorable a part of the country,—the Senate ought to reject his nomination, if it is not already rejected; and if it is, some steps ought to be taken to procure his prompt removal. The land speculators and monopolists are able of themselves to do mischief enough, without having the influence of government to aid them in their schemes.

Sat at Liberty.—The Supreme court of this State has reversed the judgment rendered against CHAS. ENGELMAN (the Flying Dutchman) and he has been discharged from the penitentiary, after serving nearly more than half the term of his sentence. This discharge was effected, not because there existed the slightest doubt of his guilt, but merely on account of some legal technicality, or trifling error in the proceedings. We hope our new constitution will provide some method of simplifying our code of practice, that will put a stop to this ridiculous mockery of justice, and ensure his just deserts in every case of where guilt there can be no doubt.

RAIN, RAIN.—After long continued drought of several weeks' duration, we were blessed with a fine rain last night, and the appearance this morning are favorable for more. It was much needed. We are in hopes yet that the wheat will prove an average crop.

Delinquent.—We are desired by Mr. W. N. PARKER, nominated by the democratic convention for Governor, to give notice that he declines being a candidate for that office.

Visit of Gen. Crittenden.—Gov. Crittenden of Kentucky paid a visit to Gov. Wright at Indianapolis last week. The papers of that place contain a lengthy account of the doings on the occasion—from which we later that the two governors and their friends had "quite a time of it." A meeting called a "Union Meeting" was held on the occasion, at which divers patriotic speeches were made and resolutions adopted. We do not exactly see where the necessity for such meeting was. "Indiana knows no north, no south; nothing but the Union." Her attachment and fidelity to the Union are as well known to us as they were necessary thus publicly to define her position.

FROM CALIFORNIA.
We are indebted to Mr. Rufus French, late of this city, for several late California papers, well filled with advertisements, and have quite a nice look about them.

We make an extract from the Daily Pacific News, published at San Francisco, showing what the feeling there is, in relation to the delay of Congress in admitting California into the Union as a state. The ground is distinctly taken, that as regards the slave question, they know the best what suits them; and as they have declared their unalterable intention never to have the curse of slavery fastened upon them, Congress is bound to respect their decision; and unless they are promptly admitted into the Union, they will feel called upon to declare themselves a free and sovereign state.

The article is deserving the serious consideration of all who feel an interest in the welfare and stability of the Union. California will be no longer trifled with, and if not speedily admitted into the Union, we may expect to see it withdraw from its allegiance to the U. States, and establish itself as an independent republic. Are the slavery ultras prepared for this result?

CALIFORNIA—Admission or Independence?
—Is California to form an additional star in the flag of that Union which we love, and of which we are proud, or is she to shine alone, a bright meteor in the sky of the Pacific? The question is forcing itself upon the minds of all thinking men in this state. Its solution rests solely with the Congress now in session at Washington.

It is impossible for any portion of the state of California to be anything other than a free state; so that should Congress, in its hickering self to circumscribe our boundaries making a separate government of the Southern half, it will result in the creation of two free States instead of one; a double dose for the torment of those who make our action of disapproving the slavery the grounds of our ostracism.

The meeting at Los Angeles, for the purpose of instituting action on this subject, was an expression of the public feeling in that state; it was a quiet cry in secret, and the very man who presided knew not the object when installed as chairman of its deliberations. Had the people of California through their representatives and afterwards by an approving vote, said nothing in their constitution upon the subject of slavery, or even made it a fundamental law of the State, our position would be unchanged. The people are the true sources of power. For their government is instituted. What suits them best, they know best; and when they declare their wishes, such declaration is to be respected. California has thus acted—and it is, under this rate of mind, Congress feels bound to oppose our admission into the Union as a free and sovereign state; we shall feel called upon to declare our

GEN. JOSEPH LANE.
Announced will be found a letter from Gen. JOSEPH LANE. It was not intended for publication; but believing that anything from such distinguished soldier, and self-sacrificing patriot will be of deep interest to our readers, we take the liberty of publishing it. We have another object in its publication. It is intended to certain quarters, by certain officers, who have all at once become very jealous of the reputation of Gen. Lane, that he intended to take ground against him for the next Presidency. The letter shows who he regards as his friends. We have been intimately acquainted with Gen. Lane for more than twenty years. We know his worth, his sterling integrity and high sense of honor. We would rejoice most to see him elected President, and would rejoice most to see him elected President.

The election for county officers which took place on the 1st of April, exhibited the fact, that although partly drawn with such strictness as to prevent the people from exercising their own opinions. The ticket elected, exhibits a fair mixture of whig and democratic principles. The election was a most exciting one, and conducted with spirit and good feeling. The principal struggle was between Mr. Townes the whig nominee for Sheriff, Col. J. B. Boyd, the democratic candidate, and Col. Jack Hayes, the democratic candidate. The latter was elected by a large majority, and daily installed into office. During the early portion of the month, the announcement of the discovery of Trinidad bay, and a safe harbor between this port and the Columbia, created much excitement, and produced a very great degree of speculation and excitement. Parties were formed, vessels fitted out, and all were eager for the new El Dorado. The bay had been discovered, a landing effected, and according to our latest accounts, several flourishing towns are springing up upon the banks of the new bay.

Business generally, although still dull, has materially improved since the sailing of the last steamer, and the prospects for the spring and summer trade are most flattering. Since the sailing of the steamer, there has been a very productive wherever they have been worked, and extraordinary yields have rewarded the toil of many. The rivers still continue high, and upon the Sacramento, so great a rise has occurred that serious apprehensions of another overflow have been entertained. The new mill, however, duly elevated under the city charter, have escaped escape of the water, to prevent the inundation of the city, and save the inhabitants from the dreadful consequences of another overflow.

John H. Pople, editor of the first American paper published in Mexico during the war, late, Gen. of the United States Navy, Lieut. Browning, and two others, were drowned in an unfortunate expedition to Trinidad Bay.

Lumber and provisions are very low; and frame houses brought on sailing vessels, would hardly sell for cost of freight.

Eight houses, and about \$65,000 in property was destroyed by fire in Sacramento City.

LETTER FROM THE MEXICANS.
We copy the following items from the last number of the *Stockton Times*:
Most Important Discoveries.—Our friend, G. C. Bell, Esq., merchant of Stockton, has just arrived from Sonora, and describes the excitement amongst the inhabitants of that town to be intense, in consequence of the late rich discoveries in this district.

There is no doubt that the new placer is of unprecedented richness, and there are supposed to be from three to five thousand pounds of silver upon it, who, in numerous instances, are getting from two to twenty ounces per day. This placer is situated about half a mile from the town, is about 600 acres in extent, and is about 400 miles from water. Many of the holes have yielded, each, upwards of 10 lbs. of the precious metal. From one hole a small sack 37 pounds of gold was taken out, and information may be relied upon, as it comes from a highly respectable source. Can Trinidad beat this?

Mariposa—New City.—A new city, to be called the Mariposa City, has been laid out at the Mariposa diggings. It has been surveyed by Mr. C. Armstrong; the streets to be sixty feet wide. The number of inhabitants is already settling on the place, is supposed to be 3,000, and the entire population of the gulch is estimated at 1,500. There are now fifteen or twenty stores in the place—a large hotel is in operation, and lots are selling at two to five hundred dollars each.

In the neighborhood, as much as two and a half lbs. of gold have been taken out of one hole in one day.

Admission of Fact.—Two men named Myers and Browner, dug out, on the forenoon of Wednesday last, twenty-eight ounces, six dollars and a half, besides a lump weighing one pound four dollars and a half, all par gold. The miners are all doing well.

The Fremont Yet.—The opinions on this vein have not yet commenced. Several fragments which were broken from the veins have been taken out, and from examination, we conclude that a rich harvest will be reaped.

The following, from the northern mines, we copy from the *Sacramento Transcript*.
Eric Weaver's Creek.—We have just met an acquaintance from the mines on Weaver's Creek, who informs us that three men dug out, on Monday last, 800 dollars' worth of gold from a vein in the following days, they dug out 500 dollars' worth. An Indian, also, on Monday, who was working for a physician, picked up, in these mines, a lump of gold weighing two pounds. There was no quartz mixed with the gold.

Another individual found, on Tuesday last, a lump which weighed 16 ounces. This lump was, also, pure gold, mixed with quartz, and in its state it was flat, and about the size of the palm of one's hand.

PLANK ROAD MEETING.
At the meeting of the stockholders of the Bluffton, Camden & Winchester plank road company, held at Camden, June 1st, 1850, Timothy Stratton was appointed Chairman, and John Sizc Secretary.

The house being called to order, A. Pitman stated the object of the meeting, and advocated an early organization in an able manner. By request, an interesting article from the Fort Wayne Times, relating to our road, was read by the secretary. The meeting was then duly addressed by the following gentlemen: Thos. Seimney of Ft. Wayne, Mr. Deam of Bluffton, J. C. Whitman, A. Pitman, H. Gregg, and several others.

On motion of A. Pitman, the following resolution was adopted:
Resolved, That we organize as soon as practicable.
On motion.

Resolved, That a meeting of the stockholders be held at Camden, on Saturday, June 23d, at 10 o'clock A. M., for the purpose of electing directors.

Resolved, That seven directors be elected; five in Wells county, three in Jay, and two in Randolph.

A committee was then appointed for the purpose of drafting articles of association, viz: J. C. Whitman, Anthony Pitman, and H. Gregg. Also, a committee appointed to prepare a bill of resolutions for a special charter, viz: H. Gregg, J. Sizc, and C. J. Timberlake.

On motion, **Resolved,** That the thanks of this meeting be tendered to the citizens of Ft. Wayne and Bluffton, for the interest they have manifested in our enterprise, and the assistance they have proffered.

GEN. JOSEPH LANE.
Announced will be found a letter from Gen. JOSEPH LANE. It was not intended for publication; but believing that anything from such distinguished soldier, and self-sacrificing patriot will be of deep interest to our readers, we take the liberty of publishing it. We have another object in its publication. It is intended to certain quarters, by certain officers, who have all at once become very jealous of the reputation of Gen. Lane, that he intended to take ground against him for the next Presidency. The letter shows who he regards as his friends. We have been intimately acquainted with Gen. Lane for more than twenty years. We know his worth, his sterling integrity and high sense of honor. We would rejoice most to see him elected President, and would rejoice most to see him elected President.

The election for county officers which took place on the 1st of April, exhibited the fact, that although partly drawn with such strictness as to prevent the people from exercising their own opinions. The ticket elected, exhibits a fair mixture of whig and democratic principles. The election was a most exciting one, and conducted with spirit and good feeling. The principal struggle was between Mr. Townes the whig nominee for Sheriff, Col. J. B. Boyd, the democratic candidate, and Col. Jack Hayes, the democratic candidate. The latter was elected by a large majority, and daily installed into office. During the early portion of the month, the announcement of the discovery of Trinidad bay, and a safe harbor between this port and the Columbia, created much excitement, and produced a very great degree of speculation and excitement. Parties were formed, vessels fitted out, and all were eager for the new El Dorado. The bay had been discovered, a landing effected, and according to our latest accounts, several flourishing towns are springing up upon the banks of the new bay.

Business generally, although still dull, has materially improved since the sailing of the last steamer, and the prospects for the spring and summer trade are most flattering. Since the sailing of the steamer, there has been a very productive wherever they have been worked, and extraordinary yields have rewarded the toil of many. The rivers still continue high, and upon the Sacramento, so great a rise has occurred that serious apprehensions of another overflow have been entertained. The new mill, however, duly elevated under the city charter, have escaped escape of the water, to prevent the inundation of the city, and save the inhabitants from the dreadful consequences of another overflow.

John H. Pople, editor of the first American paper published in Mexico during the war, late, Gen. of the United States Navy, Lieut. Browning, and two others, were drowned in an unfortunate expedition to Trinidad Bay.

Lumber and provisions are very low; and frame houses brought on sailing vessels, would hardly sell for cost of freight.

Eight houses, and about \$65,000 in property was destroyed by fire in Sacramento City.

LETTER FROM THE MEXICANS.
We copy the following items from the last number of the *Stockton Times*:
Most Important Discoveries.—Our friend, G. C. Bell, Esq., merchant of Stockton, has just arrived from Sonora, and describes the excitement amongst the inhabitants of that town to be intense, in consequence of the late rich discoveries in this district.

There is no doubt that the new placer is of unprecedented richness, and there are supposed to be from three to five thousand pounds of silver upon it, who, in numerous instances, are getting from two to twenty ounces per day. This placer is situated about half a mile from the town, is about 600 acres in extent, and is about 400 miles from water. Many of the holes have yielded, each, upwards of 10 lbs. of the precious metal. From one hole a small sack 37 pounds of gold was taken out, and information may be relied upon, as it comes from a highly respectable source. Can Trinidad beat this?

Mariposa—New City.—A new city, to be called the Mariposa City, has been laid out at the Mariposa diggings. It has been surveyed by Mr. C. Armstrong; the streets to be sixty feet wide. The number of inhabitants is already settling on the place, is supposed to be 3,000, and the entire population of the gulch is estimated at 1,500. There are now fifteen or twenty stores in the place—a large hotel is in operation, and lots are selling at two to five hundred dollars each.

Two hundred and seventy Candidates from eighteen different States, have entered this Institution since it was a garrison, in 1847. It is entirely free from the control or domination of any sect, party, either political or religious. Economy of dress, by the adoption of a cheap Uniform, for Winter and Summer, is rigidly enforced. Every student is required to select a College Guard, in which all hands brought or received of money are required, and no debt must be contracted without the consent of such guardian.

CIVIL ENGINEERING

Will be thoroughly and practically taught in the Western Military Institute—the first, in U. S. History, being one of the most skillful and experienced Engineers in the United States.

The Superintendent takes the liberty of stating that he has never offered seventy-five dollars per month for competent assistant Engineers. Our former pupils receive at this time \$9.50 per annum as Practical Engineer of a Railroad under construction in Kentucky—whilst others of the same class are receiving in different parts of the United States, \$2000, \$1500, and \$1000 a year as Assistant Engineers.

The rapid advancement of our high-

only, and the advantages of our people to extend the hidden resources of the new State, and to the appointed territory will give ample satisfaction to the full and entire views of the Engineer, the Geologist, the Mineralogist, the Surveyor, and the Agriculturist. Young men who have an epidemic of the Mathematics of Physical Sciences, will have a wide field of instruction for engaging in an honorable, a profitable and a lucrative pursuit, for which they are thoroughly and practically qualified, in a short time, and at small expense, at the Western Institute.

To secure the many-fold advantage of faithfulness, discipline, progress and moral tone, the Faculty of this Institution have selected its permanent teachers from the famous

OF WHEAT,
At the Empire Mills.**

We are prepared to pay Cash and the
Wholesale Price for 20,000 bushels of the
best of the Empire Wheat.

Farmers and Teamsters will save themselves
trouble and expense by depositing directly

to the STONE MILL and unloading; will always get the highest price, and avoid annoyance of being pestered by the bankers' scrippier whoopers from the Stores, who now sit on streets and are such a loss to all who buy wheat in our market. We are not much into boasting; but assume our own neighbor talking of owning 10,000 bushel of wheat would inform us of the raises that we can take 20,000; as our Mill, besides being the best in the highest, the highest, and the strongest in the country. We have a convenient W.A. N.Y. and ST. A.M. for tenant coming to our Mill, and a HOUSE for the Treasurer; always furnish feed for the stores, and occa-

ally turn to Supper and Breakfast to their
 care. This is nothing new with us—we have
 always thought it our duty to do so, and should
 now mention it only if our neighbors had not set
 an example.
